## SERIES 2000

### SAFE-TEE-2000 SERIES FUME CUPBOARD

The Conditionaire 'Safe-Tee' Series 2000 is an aerodynamic ducted bench top mounted fume cupboard that complies with Australian standards AS/ NZS2243.8, AS/NZS2430.3.6, AS1530.3, AS3000 and AS2208. All Conditionaire fume cupboards are designed and manufactured in Australia

The Safe-Tee Series 2000 fume cupboard is a design mark multi-award winning fume cupboard. Our double walled skin allows for wall mounted services to provide greater bench space and added protection.

**The Safe-Tee Series 2000 fume cupboard is our premium model and designed for:**

- Universities
- Private laboratories
- Hospitals
- Pharmaceutical industries
- R&D laboratories

The Conditionaire 'Safe-Tee' Series 2000 comes standard in our ultimate fire resistance **ASAH®** (Acid Solvent Alkali & Heat Resistant) material and can also be manufactured in: **TRESPA Top Lab Plus**, Fire Retardant Polypropylene (FRP), stainless steel, or lead lined for radioactive isotopes.

#### Standard Features Include:

- ASAH (acid, solvent, alkali, heat resistant) chamber construction.
- TRESPA Top lab plus fixed work base with an anti-spill lip
- Efficient and user friendly.
- Vertical sliding sash.
- Aerodynamic back baffles.
- RCD protected DGPO.
- Aerodynamic one-piece molded picture frame front fascia.
- BMS compatible.
- Conditionaire SAFE-TEE touch screen controller.
- LED lighting which exceeds 400 LUX.
- Infinite variable airflow control (IVAC).
- Fume cupboard interior and exterior finish is in a Brilliant White
